16	*Evelyn at 100% in addition to Molly (100%) and Ava (75%)? Seems excessive.				
	EHA determines that this amount of manpower is necessary in light of the volume of administrative and managerial work				
	required to successfully implement the project and the limited infrastructure that's supported by our indirect costs. This				
	includes but is not limited to coordination of programmatic reporting (quarterly, GHSA, semi annual and annual), annual				
	workplans, and monthly financial reporting, ensuring federal and financial compliance for EHA and its 20+ subawards and				
	contracts, budget reviews, invoicing, review of all expense reports, contracting, travel approval requests, tracking e-Book

24	*Really hiring someone at this point in the project?				
	Yes we need analytical staff in Year 5 for final papers and data analysis. This staff member will engage in the following tasks				
	already underway: -Completing simulation of future scenarios for the ASL2050 work stream				
	- Completing analysis IMPACT projects, notably those on SADS spillover and exposure related to guano harvesting				
	- Supporting data analysis and visualization tasks across the team.

	samples (it was actually the cost per individual), so I have reduced to						
	\$100 and changed the unit number accordingly. NB they previously						
	budgeted to test samples from 727 individuals (1454 samples), but						
	have since updated this number based on this year's progress to date						
	to 900, now reflected here.
